

Candidate for membership Experience Co-director

## Chiara Pietrarota

Chiara is responsible for the Italian corporate portfolio credit assessment at Europe Arab Bank plc since 2009, with coverage also on UK and US customers since 2016.

Before that, Chiara worked for one of the main Italian financial institutions in a similar role.

Chiara is passionate about her job and the international culture she breathes every day working in an interesting cultural environment, a bit European and a bit Middle Eastern.

Chiara joined PWN Milan in March 2018. She took part to the mentoring program as double role of Mentor to young female professional and Mentee, as she believes we never stop learning from other people. She is actively working at improving work-life and gender equality in EAB, despite the cultural challenges.

Chiara knows we can do more: for this reason, she has recently founded with four friends a start-up to enable better utilisation of public spaces; during April 2019 “Salone del Mobile” the start-up presented its showcase to the public.

Chiara would like to become PWN Board Member in order to help the other Members to carry on the goal of the association. She really believes in the importance of change the culture within companies and organisations. In order to pursue it, it is important to start from sharing experiences and knowledge, developing skills and competencies to empower the professional women to do it: thus the need for a real ‘glocal’ network.

For the year to come, Chiara's vision for the organisation is to carry on the good work done so far, trying to:

- 1.Reinforce inclusion of the new members;
- 2.Improve members' participation rate to events and meeting;
- 3.Add where possible themed meeting or round tables, i.e. meeting where women part of the same professional area have the opportunity to meet, exchange views and discuss new ideas, business propositions and also how to manage specific critical issues.
