INTERNATIONAL WOMEN ON BOARD (IWOB) - Introduction

The **International Women on Board** programme is designed to equip new, aspiring, and existing women directors with the competencies and knowledge required to be a successful board member and expand your leadership skill set with IWOB.

The IWOB programme aims to develop effective directors for the global business scene. It will offer **practical and tested frameworks and tools** to sharpen judgement and decision-making skills. It also augments the oversight abilities of directors seeking to boost their existing competencies or to be better prepared for new board mandates.

The programme will give PWN Milan participants **access to experienced Board members of the wider PWN Global Network** that has 25+ cities with more than 3000 members.

The 6-month programme provides **targeted development and mentorship** to help women gain competitive advantage in the seeking board positions and how to leverage their network for sustainable success in preparing and equipping them for their board journey.

PWN 2024 GLOBAL SUMMIT: THE POWER OF NETWORKING!

PWN Milan was in Strasbourg, too!

A special location to connect with hundreds of talented professional women from all over the globe and talk about **HEALTH**, **WEALTH** and **PEACE**.

Last but not least: **qualitative global networking** and insightful takeaways from the speakers that brought a lot of food for thought.

Highlights of the day - A video message for all of us from **Christine Lagarde**:

▶ “Take risks, do not short yourself - never underestimate your value, and be in the long game - success is a marathon, not a sprint”, the words from Christine Lagarde.

“Longevity is the name of the game: women need to diversify their career portfolio.

Most women won't invest in themselves, in training or networking associations, as they tend to spend that money on others. Invest in yourself!”
